PLANT AND SOIL

SB13
P55

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the Royal Netherlands Society of Agricultural Science

Managing Editor: G. H. Arnold, Institute for Soil Fertility, Haren (Gr.), The Netherlands.

Assistant Editors: J. K. Smit, Epe, and A. Houwers, Wageningen.

During 1974 the number of manuscripts submitted was 321; of these 120 were not accepted for publication, while 30 manuscripts are still in the files awaiting authors' replies.

These manuscripts were reviewed by

A. D. L. Akkermans, Wageningen
J. F. Bierhuizen, Wageningen
G. J. Bollen, Wageningen
R. Boxma, Haren
R. Brouwer, Utrecht
J. van der Burg, Wageningen

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

F. O. Aderungboye and O. F. Esuruoso, Ecological studies on *Pythium splendens* Braun in oil palm (*Elaeis guineensis* Jacq.) plantation soils 397

B. Ahmed, *Short communication.* Mineralization of inositol hexaphosphate in soil at varying static moisture levels . . 253

G. A. Argyriadis, W. Dijkshoorn and J. E. M. Lampe, Level and origin of carboxylate in buckwheat 669

M. Asghar and Y. Kanehiro, Effects of sugarcane trash and pineapple residue incorporation on soil nitrogen, pH and redox potential 209

Bahadur Ali, Influence of the endophytes of nardus on plant growth 329

Jean-René Bailly, Etude de quelques acides humiques sur gel de dextrane. III 49

Eli Berger, Partitioning the parameters of stony soils, important in moisture determinations into their constituents 201

K. K. S. Bhat, P. H. Nye and J. P. Baldwin, Diffusion of phosphate to plant roots in soil. IV. The concentration distance profile in the rhizosphere of roots with root hairs in a low P soil 63

Gabriel Bitton, Y. Henis and N. Lahav, Effect of montmorillonite and the capsular polysaccharide on the flocculation of *Klebsiella aerogenes* 37

M. A. Bostock and J. O. Rieley, *Short communication.* A simple device for measuring soil percolate flow rates from tile drains. 257

R. Boxma, Mobility of iron in the estuaries of the Rhine and the Ems relevant to plant-availability problems 407

E. G. BRADFIELD, *Short communication.* Calcium complexes in the xylem sap of apple shoots. 495

M. S. BRAR and G. S. SEKHON, *Short communication.* Effect of manganese on zinc-65 absorption by rice seedlings and its translocation within the plants 459

J. L. BREWSTER, K. K. S. BHAT and P. H. NYE, The possibility of predicting solute uptake and plant growth response from independently measured soil and plant characteristics. IV. The growth and uptake of rape in solutions of different phosphorus concentration. 279

J. L. BREWSTER, K. K. S. BHAT and P. H. NYE, The possibility of predicting solute uptake and plant growth response from independently measured soil and plant characteristics. V. The growth and phosphorus uptake of rape in soil at a range of phosphorus concentrations and a comparison of results with the predictions of a simulation model 295

S. S. DAHIYA and MAHENDRA SINGH, *Short communication.* Effect of salinity, alkalinity and iron application on the availability of iron, manganese, phosphorus and sodium in pea (*Pisum sativum* L.) crop 697

T. E. DEVINE, C. D. FOY, A. L. FLEMING, C. H. HANSON, T. A. CAMPBELL, J. E. MCMURTREY III and J. W. SCHWARTZ, Development of alfalfa strains with differential tolerance to aluminum toxicity. 73

A. W. S. M. VAN EGERAAT, *Short communication.* The exudation of γ-glutamyl-alanine by root tips of pea plants 501

F. M. EL-REWEINY, K. SIMPSON, P. CROOKS and S. MCINTOSH, Effects of condensed phosphates on plant growth and phosphorus uptake. 1

H. M. EL-SHARKAWI and M. EL-MONAYERI, Response of olive and almond orchards to partial irrigation under dry-farming practices in semi-arid regions. III. Plant-soil water relations in almond during the growing season 113

W. O. ENWEZOR, *Short communication.* The mineralization of

nitrogen and phosphorus in organic materials of varying C:N and C:P ratios 237

H. G. VAN FAASSEN, *Short communication.* Methylation of mercury compounds in soil, sediment and sewage-sludge samples 505

NAND KUMAR FAGERIA, Influence of potassium concentration on growth and potassium uptake by rice plants 567

V. FERNANDO and G. R. ROBERTS, The partial inhibition of soil urease by naturally occurring polyphenols 81

J. GNITTKE and CH. KUNZE, *Short communication.* Tanninabbau in Bodenproben 249

G. S. GUMAA, R. J. PRATHER and S. MIYAMOTO, *Short communication.* Effect of sulfuric acid on sodium-hazard of irrigation water 715

A. GUPTA and M. C. SAXENA, Evaluation of leaf analysis as a guide to nitrogen and phosphorus fertilization of potato (*Solanum tuberosum* L.) 597

UMESH C. GUPTA and E. W. CHIPMAN, Influence of iron and pH on the yield and iron, manganese, zinc, and sulfur concentrations of carrots grown on sphagnum peat soil 559

P. R. HESSE, *Short communication.* Particle size distribution in gypsic soils 241

I. C. R. HOLFORD and G. E. G. MATTINGLY, A model for the behaviour of labile phosphate in soil 221

I. C. R. HOLFORD and G. E. G. MATTINGLY, Phosphate adsorption and plant availability of phosphate 377

D. B. JAMES and S. M. SMITH, *Short communication.* 'In vivo' estimates of nitrate reductase activity 467

M. C. JARVIS and H. J. DUNCAN, Profile distribution of organic carbon, iron, aluminium and manganese in soils under bracken and heather 129

S. C. JARVIS, L. H. P. JONES and M. J. HOPPER, Cadmium uptake from solution by plants and its transport from roots to shoots 179

O. P. Joshi, M. S. Sachdev, K. L. Sahrawat and B. N. Kohli, Effect of simazine and atrazine on the mineralization of fertilizer and manure nitrogen 367

B. T. Kang and E. G. Okoro, Response of flooded rice grown on a vertisol from northern Nigeria to zinc sources and methods of application 15

S. Kathju and A. N. Lahiri, *Short communication.* Effects of soil fertility on the activities of certain enzymes of desiccated wheat leaves 709

F. R. Khan, B. Ahmed and J. Akhtar, *Short communication.* Release of nutrient elements from soil as affected by fertilizer and moisture treatments 455

R. D. Laura, Effects of alkali salts on carbon and nitrogen mineralization of organic matter in soil 587

R. D. Laura, *Short communication.* On the stimulating effect of drying a soil and the retarding effect of drying a plant material 463

K. W. Lee, C. E. Clapp and A. C. Caldwell, *Short communication.* Phosphorylated compounds in soybeans [*Glycine max* (L.) Merr.] as affected by phosphorus levels in solution.. . 475

D. R. Leece, *Short communication.* Occurrence of physiologically inactive zinc in maize on a black earth soil 481

Manju Bhattacharya and K. R. Samaddar, Epidemiological studies on jute diseases. Survival of *Macrophomina phaseoli* (Maubl.) ashby in soil 27

K. Mengel, Maija Viro and G. Hehl, Effect of potassium on uptake and incorporation of ammonium-nitrogen of rice plants 547

M. A. Morgan and W. A. Jackson, Calcium and magnesium in ryegrass. Some differences in accumulation by roots and in translocation to shoots 623

N. B. K. Murthy and K. Raghu, *Short communication.* Effect of thiram on plant growth and rhizosphere microflora of barley and nodulation in cowpea.. 491

E. K. S. NAMBIAR, *Short communication.* Uptake of Zn^{65} from dry soils by plants 267

K. K. PANDEY, *Short communication.* Effect on certain chemicals on soil fungistasis 487

JOHN PROCOPOU, ARTHUR WALLACE and G. V. ALEXANDER, Microelement composition of plants grown with low to high levels of sulfur applied to calcareous soil in a glasshouse . . 359

BHARAT RAI, *Short communication.* Study of fungi on decaying leaves of *Saccharum munja* by differential washing technique 233

D. W. RAINS and C. S. BLEDSOE, The effect on Douglas-fir seedlings on the transfer of nutrients through soil columns . . . 97

N. RAJAGOPALA IYER, *Short communication.* Nodule formation and haemoglobin content in some species of Papilionaceae 451

K. P. RAJARAM and N. SETHUNATHAN, Factors inhibiting parathion hydrolysis in organic matter-amended soil under flooded conditions 683

V. V. RENDING, C. OPUTA and E. A. MCCOMB, Effects of sulfur deficiency on non-protein nitrogen, soluble sugars, and N/S ratios in young corn (*Zea mays* L.) plants 423

JOHN ROBERTS, A study of root distribution and growth in a *Pinus sylvestris* L. (Scots pine) plantation in East Anglia . . 607

L. O. SAFFORD, *Short communication.* Seasonal variation in the growth and nutrient content of yellow-birch replacement roots 439

H. N. SHAHI, C. S. KHIND and P. S. GILL, *Short communication.* Iron chlorosis in rice (*Oryza sativa* L.) 231

BIJAY SINGH and G. S. SEKHON, Some measures of reducing leaching loss of nitrates beyond potential rooting zone. I. Proper co-ordination of nitrogen splitting with water management 193

BIJAY SINGH and G. S. SEKHON, Some measures of reducing leaching loss of nitrates beyond potential rooting zone. II. Balanced fertilization 391

MAHENDRA SINGH and PRADEEP KUMAR MALHOTRA, *Short communication.* Selenium availability in berseem (*Trifolium alexandrium*) as affected by selenium and phosphorus application 261

MAHENDRA SINGH and S. S. DAHIYA, Effect of calcium carbonate and iron on the availability and uptake of iron, manganese, phosphorus and calcium in pea (*Pisum sativum* L.) 511

R. A. SINGH, O. P. SINGH and MAHATIM SINGH, Effect of soil compaction and nitrogen placement on weed population, yield and moisture use pattern of rainfed wheat 87

B. K. SINHA and N. T. SINGH, Salt distribution around roots of wheat under different transpiration rates. 141

B. K. SINHA and N. T. SINGH, Root uptake coefficient for Cl ions in corn as affected by transparation rates and solution concentration 521

R. J. SUMMERFIELD, P. A. HUXLEY, P. J. DART and A. P. HUGHES, Some effects of environmental stress on seed yield of cowpea (*Vigna unguiculata* (L.) Walp.) cv. Prima. . 527

V. T. TADROS and J. W. MCGARITY, A method for collecting soil percolate and soil solution in the field. 655

K. H. TAN, Contamination of humic acid by silica gel and sodium bicarbonate 691

B. K. TAYLOR and F. H. GOUBRAN, Effects of phosphate and pH stress on the growth and function of apple roots. . . . 149

I. VALENTINE and K. P. BARLEY, Effects of soil temperature and phosphorus supply on an annual grass and clover grown in monoculture and in mixed culture. 163

D. VAUGHAN and D. J. LINEHAN, *Short communication.* The growth of wheat plants in humic acid solutions under axenic conditions. 445

B. VENKATESWARLU, Source-sink interrelationships in lowland rice 575

H. VRUGGINK, Influence of agricultural crops on the actinomycetes flora in soil. 639

A. WALLACE, S. M. SOUFI, J. W. CHA and E. M. ROMNEY, *Short communication*. Some effects of chromium toxicity on bush bean plants grown in soil. 471

D. O. WILSON, *Short communication*. Evaluation of chemical seed coat sterilants. 703

J. R. WILSON and R. L. SANDLAND, The relation between growth and nitrogen and phosphorus content of green panic and kikuyu grass. 341
